

BOOTS

AE2381DW

The insulated boot for Zebra DS3600 keeps your device working in harsh environments while providing more ways to carry with a D-ring for a retractor or sling.

AE2385DW

Protective boot for the DS3600 offers a D-ring for retractors, always keeping your device by your side. The Velcro strap keeps the boot securely on the device.

AD2161DW

Attached phone mount fully integrates two devices in one carrying solution with no loss of function. We have solutions for iPhone 5 & 6, as well as the Galaxy 5S.

S5688DW

Boot for Powerscan creates more ways to carry with D-rings for use with optional retractor or sling.

X6790DW

Insulated boot fits the LS3408, LS3478, & LS3578. Keeps device functional in harsh conditions and D-ring creates more ways to carry with optional retractor.

V6189DW

Custom engineered, ruggedized swivel cell clip for quick on/off clothing or belt. Suitable for left or right handed use. Fits the LS3408, LS3478, & LS3578.

X6563DWSP

Neoprene body resists degradation from weather and stretches for snug fit on your MC1x device.

S5750DW

Light weight Neoprene boot stretches for snug fit, protecting the Powerscan 7000 from the elements while remaining easy to clean.
