

MC9000 Series

AE2277DW

Holster provides easy-in, easy-out access to the device while the RAM Mount allows the user to position the device as needed while absorbing shock.

AE2290DW

Sewn belt loops on either side allow for right or left handed use while a retaining strap helps keep the device in place. An extra pocket on the back carries any accessories.

X6791DW

Leather exterior offers I-safe compatibility while protecting the device from accidental drops. Snap belt loop on a swivel-D moves with the user for easy attachment.

AC1748DW

Holster includes hardware for multiple mounting options.

V6289DW

EasyCharge allows access to the charging cradle with out having the remove the case. D-rings create more ways to carry with optional shoulder strap or sling.

Y6992DW

Wall mount holster is great for when one device has multiple users. Can be attached to a wall or pole with included zip ties.

S5678DWCC

DirectTouch case allows access to screen and keypad for ease of use. Cell clip easily attaches to user. Hand strap prevents accidental drops while D-rings are compatible with optional strap.

U6044DW

For the MC9000 series with CAM, this holster features cutouts for access to serial and power connectors for easy CAM attachment.
